1. Introduction

Setsoto Local Municipality is not unique from other South African Municipalities that are faced with growth and developmental challenges of re-dressing development, maintaining and upgrading developed urban areas and uneven developed peri-urban and rural areas within a limited budget.

Municipalities are at the cold face of service delivery, and that citizenry of our country will only enjoy this democracy, peace and freedom as enshrined in the Constitution of 1996, the Bill of Rights and various pieces of legislation, if a sense of belonging, ownership and participation of communities in their development can possibly be achieved through the Integrated

Development Plan process. This process cannot be wished away and such thought can be suicidal and playing in the hands of those communities that are frustrated by the pace of service delivery and prone to protest mode if provoked like what happened earlier in the year here in Setsoto by the Meqheleng Concerned Citizens.

Through the prioritisation process of the Integrated Development Plan, particular those priority needs as expressed through the Budget and Integrated Development Plan road-shows, ward committee meetings and various stakeholders and interest groups engagements with the management core and political leadership is a critical process for the municipality to be regarded as responsive towards the resident's priority needs.

Having regarded the prioritisation process as a critical phase of the Integrated Development Plan review, it is profound to describe it as part of the Integrated Development Plan five phases namely: the analysis phase, strategic phase, project phase, integration phase and the adoption phase.

2. Purpose of the Integrated Development Plan

The Municipal Systems Act, 32 of 2000 as promulgated describes the various core processes that are essential to realising a system of developmental local government.

These aspects include participative governance, Integrated Development Plan, Performance Management Systems and Reporting, Resource Allocation and Organisational Change. These processes are linked into a single cycle of at the local level that will aligned various sectoral initiatives from national and provincial government departments with municipality's own capabilities and processes.

Therefore, the purpose of this document is to outline the operational plan, an integrated process plan, for the development of the Integrated Development Plan for Setsoto Local Municipality.

This IDP Review Process Plan is based on the unique character and circumstances of Setsoto Local Municipality, taking due cognisance of the process plan requirements as outlined in the Municipal Systems Act, 32 of 2000, section 34, and guidelines for the Integrated Development Plan provided by the National Department of Provincial and Local Government, presently known as Department of Cooperative Governance and Traditional Affairs.

In order to ensure certain minimum quality standards of the Integrated Development Plan, and a proper coordination between and within the spheres of government, the preparation of the IDP Review Process Plan has been regulated in the Municipal Systems Act 32, 2000. The preparation of an IDP Review Process Plan set out in writing, requires the adoption by Council. This plan has to include the following:

- A programme specifying the timeframes for the different planning steps;
- appropriate mechanisms, process and procedures for consultation and participation of local communities, organs of state, traditional authorities, and other role players in the Integrated Development Plan drafting process;
- An indication of the organisational arrangements, i.e. policy and legislation; and
- Mechanisms and procedures for vertical and horizontal alignment.

3. Legal Context of Integrated Development Plan Process Plan

3.1 The Integrated Development Plan

Chapter 5 and section 25(1) of the Municipal Systems Act, 32 of 2000 indicates that: Each Municipal council must, within a prescribed period after the start of its elected term, adopt a single, all inclusive and strategic plan for the development of the municipality which;-

- (a) Links, integrates and coordinates plans and takes into account proposals for the development of the municipality;
- (b) Aligns the resources and capabilities of the municipality with the implementation plan;
- (c) Complies with the provision of this Chapter; and

- (d) Is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

3.2 The IDP Review Process Plan

In terms of Chapter 5 of the Municipal Systems Act, 32 of 2000, as amended and section 28(1) requires that: Each municipal council must, within a prescribed period after the start of its elected term, adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan for the development of the entire municipality that:-

2.1.1. Consults the local community on the Process Plan

2.1.2 Gives Public Notice on the process the municipality intend to follow.

In terms of the core components of the integrated development plans, Chapter 5 and section 26 of the Municipal Systems Act, 32 of 2000 indicates that: An integrated development plan must reflect-

- a. The municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs;
- b. An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- c. The council development priorities and objectives for its elected term, including local economic development aims and its internal transformation needs;
- d. The council's development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- e. A spatial development framework which must include the provision of basic guidelines for land use management system for the municipality;
- f. The council's operational strategies
- g. Applicable disaster management plan
- h. A financial plan, which must include a budget projection for at least the next three years; and
- i. The key performance indicators and performance targets determined in terms of section 41.

3.3 The Annual Budget

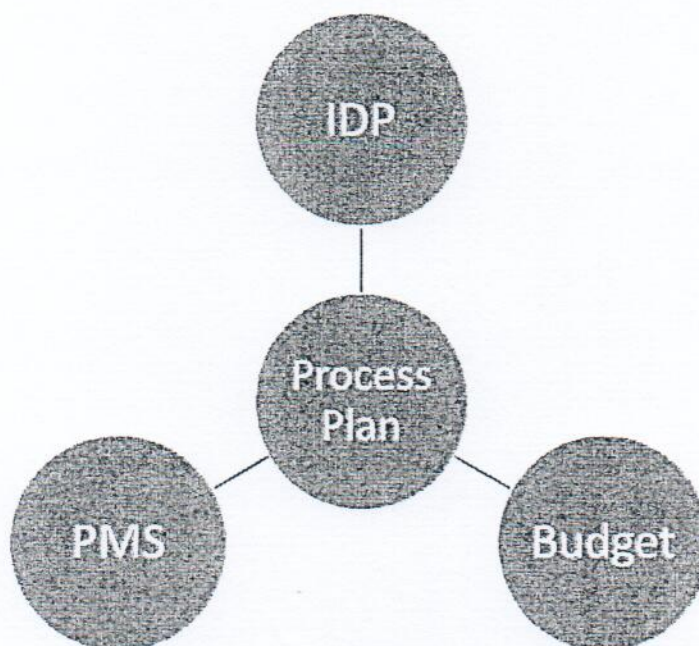

The annual budget and the integrated development plan are inextricably linked to one another, something that has been formalised through the promulgation of the Municipal Finance Management Act, 56 of 2003. Chapter 4 and section 21 (1) of the Municipal Finance Management Act, 56 of 2003 indicate that:

The Mayor of a municipality must-

- a. At least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for-
 - i. The tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and
 - ii. The consultative processes forming part of the processes referred to in subparagraphs (i) and (ii).

Alignment of the IDP, Budget and the Performance Management Systems processes

Every attempt will be made in this municipal plan to align the IDP and the Budget preparation process, and the Performance Management System review. The linkages of the three processes are summarised in the following diagram.

4. Status Quo Analysis

4.1 Background

Setsoto is situated in the Eastern Free State within the district boundaries of the Thabo Mofutsanyana District Municipality. The local municipality area measures 5 948.35 km² in extent and comprises four urban areas namely Ficksburg, Senekal, Marquard and Clocolan, as well as their surrounding rural areas.

The first integrated development plan of the municipality was developed in 2001 and adopted in May 2002 and the evaluation of that five year plan was completed in 2005 the Department of Provincial and Local Government, currently being the Department of Cooperative Government and Traditional Affairs and the South African Cities Network IDP hearings that were held then.

Subsequently to those IDP hearings, the Department of Cooperative Government and Human Settlement conduct hearings for the Free State Province and IDP assessments are done on annual basis to provide a credibility of each IDP.

4.2 Vision of the Municipality

A viable unified, viable and progressive municipality.

4.3 Mission Statement

The municipality is committed to deliver services within the framework of Batho Pele principles as outlined below:

(a) Courtesy and 'People First'

Residents should be treated with courtesy and consideration at all times.

(b) Consultation

Residents should be consulted about service levels and quality, whenever possible.

(c) Service standards

Residents must be made aware of what to expect in terms of level of quality service.

(d) Access

Residents should have equal access to services to which they are entitled.

(e) Information

Residents must receive full and accurate information about their services.

(f) Openness and transparency

Residents should be informed about government departments, operations, budgets and management structures.

(g) Redress

Residents are entitled to apology, explanation and remedial action if the promised standard of service is not delivered.

(h) Value for money

Public services should be provided economically and efficiently.

4.4 Population Demographics

The size of the population within the area of Setsoto is estimated at approximately 112 599 people by census 2011, decreasing from 123 194 from the census 2001, as indicated in the table below. The figure is calculated on the basis of census 2011 incorporating annual growth based on the average annual growth rate of the Free State province.
